If the national guard gets called in to keep the peace in Washington DC on the 6th, you are all going to see what I have been telling you for years. The military is NOT on our side.!!

The rank and file members of the combat units lean heavily right. However, the officer class is a bunch of neoconservatives. They are not going to fight this battle for us. The non-combat soldiers are packed with minorities, foreigners, liberals and other people who lean left. Some lean right, but many lean left.

The one and only way to create an environment where the military would either stay out of it, or soldiers might refuse to fight, would be if actual violence started.

The United States military is not going to step in on the side of Trump supporters. They will suppress Trump supporters in Washington DC on the 6th of January.

3 You're 100% right, and that makes our numbers in DC even more important and if the majority are not armed, it won't matter if theres 10 million.

3 The point is that no matter what uniform they wear, if they in the way, they in the way.

0 Rest assured that the military is not going to step in and do the fighting for us. I don't care what the president orders them to do, at the very most they will block movement of traffic, or movement of people. If a State national guard gets called into Washington DC, they are going to suppress Trump supporters on the 6th.

Explain how? Are you suggesting that Donald Trump is going to personally take command of a national guard unit, and have that national guard unit go against the police, and act on the side of the Trump supporters?

As far as I know, the last time the National Guard went rogue was at Kent State. I have no idea what you think is going to happen in DC, but it's a peaceful protest. Antifa never shows up when there are large crowds (though they like to pick off stragglers when it gets dark.) Unless Trump supporters start acting the fool and getting destructive, aggressive etc. no one is going to bother you. Wait and see.

I agree.. mostly. The problem in DC is you are throwing them into the middle of a riot basically...  
Trump needs to use them surgically while he still has that power. Small teams to grab evidence and arrest people. An occupying force will never work as long as all the Patriots remain armed!

A riot? Maybe in your dreams. No this will be righteous fury with the Capitol as its goal.

Exactly right, are we expecting 19 and 20 year old kids to make a political decision in the execution of their military duty? Do you expect the national guard to fight the DC police and Capitol police?

0 Okay... Trump's gonna take personal command of a NG unit and execute precision strikes on behalf of his supporters. Got any idea how the military functions?
